

The College of International Holistic Studies

The College of International Holistic Studies is built on a firm foundation designed to synergistically blend the rigor of medical science with the time-tested power of alternative and integrated therapies. Our teachers are selected for their expertise and ability to blend both science and the art of healing. Each program is designed to provide you with the practical knowledge and experience to heal using real-world tools, as well as the consciousness to appreciate the metaphysical tools that our souls provide.

Certificate in Energy Medicine/Part Two

CERTIFICATE CODE: CEM 102

Become a Professional Healer—Everything Is Energy:
In this FOUR-month program you will develop your natural ability to sense and channel energy to build your intuition, heal all levels of energy in others, and attract clients to your business.

The human body contains energy channels, known in Chinese healing as meridians, and in SANSKRIT as chakras, which collect and transport energy throughout the body and energy field. These energy channels can be utilized to sense dis-ease and to promote wellness. Everyone has one or two levels of natural energy awareness.

Janet Amare has been a professional healer since 1984 and will help you to understand your natural abilities and will help train you to expand your intuitive abilities and skills in channelling energy to others. By the end of the ten month course you will have the tools to begin your personal healing practice or to develop a coaching or counselling practice. Janet will work with you throughout the process to help you to assess and develop your personal skills for the work you choose to do.
